average content

#### ANGLOGOLD ASHANTI WORLDWIDE

**588,000**

ounces of gold  
produced

**3.81 g/t**  
average content

ANGLOGOLDASHANTI

## OUR BUSINESSES

**Gold:** our main business. We produced **414 thousand ounces** in 2021, which is equivalent to about 13 tons.

**Sulfuric Acid:** Sulfur dioxide (SO<sub>2</sub>), released in the production of gold at the Queiroz Plant, in Nova Lima (MG), is used in a sustainable way to produce sulfuric acid. we produced **172 thousand tons of the product** in 2021.

**Energy:** we invest in **self-generated energy** to make our business even more sustainable.

**Real Estate:** Eighteen percent of company land is set apart for real estate development, including areas for social projects, while **53% of it is for environmental conservation.**

## DAMS AND DRY DISPOSAL

We have seven dams in Brazil, **all of which are safe and have statements of stability**, in compliance with the law. All of the company's operations will migrate to dry stacking by 2022, eliminating wet tailings and dams.

## RENEWABLE ENERGY

We received the Renewable Energy Certificate (Cemig-REC) **for reaching the 100% renewable-energy milestone in our operations in 2021.** We also have set a global goal of **zeroing out greenhouse gas emissions (scope 1: directly resulting from company operations and indirect scope 2 gases: arising from electricity purchased for the company's own use) by 2050.**

## SOCIAL PERFORMANCE

Our Sustainable Partnerships programme – the company's main social development platform – is supporting 20 initiatives in its 2022 edition with **investments of more than R\$1.3 million.** The programme has supported 272 initiatives since 2010, and more than **35 thousand people have benefited** and **R\$ 11.4 million has been invested.**
